EDUCATION

- **2022 / 2025** Computer Engineering specialized in Robotics and Cobotics, EIDIA – School of Digital Engineering and Artificial Intelligence – Euro-Mediterranean University of Fez.
- **2020 / 2022** Integrated Preparatory Cycle, EIDIA – School of Digital Engineering and Artificial Intelligence – Euro-Mediterranean University of Fez.
- **2019 / 2020** Baccalaureate in Technical Sciences on Electricity, AlFarabi Technical High School, Salé.

PROFESSIONAL EXPERIENCE

- **Arduino Developer Certificate - Rabat, Morocco (Two days)**
  Arduino Developer Training Program organized at ENSIAS (National School of Computer Science and Systems Analysis).
- **Robotics Competition - AlFarabi Technical High School - Salé, Morocco (One week)**
  Participation in the robotics competition, first edition organized by the Science Club of AlFarabi Technical High School.
- **Participation Certificate - Salé, Morocco (2018/2019)**
  The objective of the JA Company program is to enable students to create their own company and to learn about how a company operates, allowing them to discover firsthand the functioning of a business.
- **Initiation Internship - Rabat, Morocco (From July 01 to August 02, 2022) - LabX**
  LabX is an innovative company specialized in the development of advanced technological solutions. As a web development intern at LabX, it was an opportunity for me to immerse myself in a dynamic professional environment and work alongside a talented team of experienced developers.
